

# HERMANN J. WIEMER NURSERY

Keep vines in a moist, cool environment. Do not cut tops or roots.

## PLANTING YOUR VINES

1. Always keep vine moist during the planting process.
2. Heel in vine deep enough so the vine can be covered to just below the union.
4. Pack soil around plants to collapse any air pockets.
5. Water vine regularly.

Thank you for purchasing a  
Hermann J. Wiemer Nursery Potted Vine!
